

Hritujeet Sharma

Full Stack Web Developer | Open to Work

Kota, Rajasthan • 9054899358 • sharmahritujeet@gmail.com

Results-driven Full Stack Web Developer with 4 years of experience building and maintaining responsive, feature-rich web applications. Apart from this, I have acquired a total experience of 6 years in coding and building software. Proficient in modern JavaScript frameworks, backend integration, and database management to optimize system performance. Committed to writing clean, maintainable code and collaborating effectively in agile environments to deliver high-quality digital products.

Professional Experience

Web Developer

Garg Pharma, Kota, Rajasthan

Jul 2026 to Sep 2026

As a Web Developer at Garg Pharma, I led the **end-to-end development** of a digital product catalogue for Garg Pharma's new unit, Sawariyan Seth Enterprises. I focused on architecting scalable front-end solutions using React with Next.js and ensured seamless API integration with a backend system. My core responsibilities involved understanding their needs and building a fully functioning product catalogue with an admin dashboard, while managing costs of maintaining the website in the long run.

Chief Technology Officer

Unifiée, Kota, Rajasthan

Aug 2026 to Present

Spearheaded technical strategy and engineering for an all-in-one B2B packaging and branding venture. Architected end-to-end system workflows, database schemas, and procurement pipelines, eliminating multi-vendor operational friction from requirement specification to production delivery. My core responsibility includes engineering a suitable architecture for this venture and developing the platform, while handling all the technical aspects of the venture.

Intern: Web Developer

ICAMC(IIT Guwahati), Guwahati(Remote), Assam

May 2026 to Present

Working as an intern for ICAMC(IIT Guwahati) as a Web developer, contributing to re-designing a responsive and professional website for the 3rd International Conference on Additive Manufacturing and Characterization, hosted at IIT Guwahati. My core responsibility includes helping re design the UI of the website, while I get to learn about backend operations in php.
